CELESTIAL SYSTEMS + dataiku

Access The Power Of Dataiku
As A Managed Service

Launch Production-Ready AI In Weeks, With Lower Barriers And Expert Delivery

Most enterprises struggle to scale AI because platforms are complex, talent is scarce, and integration can take years. Celestial Managed Services removes those roadblocks, enabling secure deployment and seamless integration with your existing stack—without the cost and delays of building it all in-house.

About Celestial Managed Services

We bring the full power of the **Dataiku enterprise AI platform** as a fully managed service—making it easier to adopt, scale, and govern AI across the enterprise.

1. **Reduced complexity:** access enterprise AI without the overhead of platform management or new headcount.

2. **Faster path to production:** go from idea to deployment in **8–12 weeks,** with Celestial handling delivery and support.

3. **Ongoing support & optimization:** SLA-backed managed service model ensures your AI solutions stay secure, reliable, and up to date.

4. **Industry-leading foundation:** built on Dataiku technology that's powering innovation at leading global enterprises.

Example Outcomes

Loan Origination

Embed AI-driven scoring and compliance checks directly into core systems, reducing processing times by up to 80%.

Operational Efficiency

Automate processes and orchestrate predictive insights across your existing infrastructure.

Customer Intelligence

Scale churn prediction and personalization pipelines to increase retention by 10–15%.

Document Automation

Automate extraction, validation, and routing—reducing manual handling by 60–80%.

Why Leading Organizations
Choose Celestial

CELESTIAL SYSTEMS + data iku

375+	250+	1500+
Employee Worldwide	Clients	Mission Critical Application

We Bring 20+ Years Of Engineering Experience In Building Secure, High-Performance Systems, Now Applied To Enterprise AI.

How Celestial Delivers

Our delivery model is designed to make AI adoption straightforward and low risk, guiding you from first use case to long-term scale.

1. Identify High-Impact Opportunities – We start by pinpointing where AI can deliver the fastest, most measurable ROI.

2. Build a Tailored Roadmap – Together we map out a practical plan that balances quick wins with long-term goals.

3. Seamlessly Integrate Solutions – We implement AI into your existing systems with minimal disruption.

4. Scale and Evolve – As your needs grow, we adapt and expand your AI solutions to keep delivering value.

Let's Explore How Celestial Managed Services Can Accelerate AI Adoption At Scale.
